Peace Education

To commemorate the centenary of the First World War; The Global Peace Games (GPGs) brings young people together in a cultural exchange of learning. It enables young people to explore the role of sport; at home, in the community and in different countries; our global village.

An integral aspect to the GPGs will help contextualise young people's perception of war. It will record their experiences and opinions, which they feel are relevant today - for future generations.
