

Paul Cooper Co-Founder and Director of the National Children's Football Alliance

Thank you for coming today and supporting our charity the NCFA (National Children's Football Alliance)

We are very grateful and honoured that Swindon Town FC are hosting the event today and also thank you to all the players for both teams giving up their time today.

Our relationship with the club began in 2020 when the Swindon Town Foundation twinned their Foundation Community pitch with the Flanders Peace pitch in Messines, Belgium, site of the 1914 Christmas Truce and football game. Football has a wonderful way of bringing people together and breaking down barriers and If you can play a game of football against your enemy during a World War, anything is possible.

About Us

The National Children's Football Alliance and its extended children's focused organizations, form a vital network of partnerships that share education and best practice and protect childhood through play.

The Mucklowes have long been Swindon Town fans ever since Kerry did a day's work at The County Ground selling burgers and Kurtan had a trial for Swindon youth team but unfortunately failed to turn up because he missed the bus.

All monies raised will support children from diverse poor back grounds at the Global Peace Games. The NCFAs peace education programme is a respite for mixed ability, mixed gender, special needs, refugees and migrant children to learn competences through play. The GPGs is an annual week-long event that celebrates the United Nations International Day of Peace. Many of the participants come from communities of concern and war-torn countries. Your support will provide happy memories.
