

Six months after the GPGs a summary of Chailey School Pupils Follow Up
Form

March 2018

1. What was the most important thing that you learnt from taking part in the Global Peace Games?

- The most important thing that I learnt from taking part in the GPGs is that friendship is a feeling that nothing can delete, not even war and that sport is important, because it can unite people, even if they are from different countries.

(M Guglietta)

- I learned that to unite people we need only a simple ball

(Bruno)

- GPGs was a great experience that allowed me to learn a lot of things. One of the most important was to play every sport for fun.

(A Masella)

- The most important thing I learnt was how to work with people I didn't know from other cultures and improving my foreign languages and communication skills.

(F Urcivoli)

- Taking part in the GPGs I learn a lot of things but the most important one in my opinion it was that people are all equal independently of their nationality and sport can allow you to make friends, express yourself, solve disputes and bring peace; which is the most important valor that exists.

(C di Vito)

2. Have your attitudes and opinions about football and sport changed since taking part in the Global Peace Games, if so how?

- I think my attitude towards football and sport have changed since I participated in the GPGs. I always thought football and rugby were only for men. I played team games at the GPGs and now I realise that all sport is for everyone.

(L Montano)

- My opinion about football has changed because before taking part in the GPGs I saw football as a sport only played for money and not for fun.

(Bruno)

- I love playing football since I was a child, I still play football but I now often think about the GPGs experience and I remember that the important thing about football is to play for fun.

(A Masella)

3. When you see and hear stories about refugees and migrants in the news do you relate this to your experience at the Global Peace Games? How?

- I learn so much from the refugees and migrants at the GPGs it was an informative experience.

(F Urcivoli)

- I always think about what I've learnt and about the stories of many young people who I've met during the GPGs and I think that's really unfair and shameful that there are people who risk their lives to live in dignity and after they have gone through they are discriminated.

(C di Vito)

- Every time I hear the news I remember my experience at the GPGs and I hope that these guys are well and can live in peace.

(Bruno)

4. Have you used the Football & Peace website <http://www.childrensfootballalliance.com/football-and-peace/> since the Global Peace Games? For what reason?

- I use the website to keep in touch and find out more about the GPGs.

(A Masella)

- I use the website because I want to know more about the organisers, GPGs and the Peace Village.

(F Flore)

- Yes I use the website because I want to search information about the NCFA's activities and initiatives.

(M Guglietta)

5. How will your school ensure that the Peace Pitch is used regularly to promote sportsmanship, fair play and friendship?

- At school during the hours of physical education we plan games that promote fairplay, sportsmanship and friendship. In addition, the school will organise workshops where I and the other guys who participated in the GPGs will talk about our experience and we will do some related activities

(C di Vito)

- My school takes sport very seriously. We will teach the importance of sportsmanship, fair play and friendship, before win at all costs.

(L Montana)

- I think my school will promote this experience, for example, organizing a meeting where we can tell our testimony.

(M Guglietta)

6. Has the experience gained at the Global Peace Games impacted on your daily life? E.g. have you used strategies you learnt to resolve an argument, intervene in a fight or act as a peace maker?

- I now act as a peace maker when my friends fight.

(F Urcivoli)

- The GPGs changed my life. Thanks to the things that I learnt I can now act as a peace maker when situations arise.

(A Tavami)

- I now have strategies that I learnt at the GPGs on how to intervene and resolve hostile situations.

(L Montano)
