WHAT WOULD YOU DO TO MAKE THE WORLD A BETTER PLACE: I believe in treating others the way I would like to be treated myself. Even though we are all different, we are all human beings and deserve to be treated with dignity and respect. I will do my best to live by this principle and to encourage others to do the same. It is important that we keep talking to one another and continue creating opportunities to meet, because that is how we discover how much we actually have in common.
