

## **INTERVIEW WITH 2024 GPGs AMBASSADOR FOR PEACE**

**Peace is an essential element in the human race, and so, therefore, peace contributes immensely in the livelihood of people.**

**Having a peace pitch in my home country is a welcoming initiative that'll help foster the education of peace and its importance in my country. Before now, my country people have seen, feel, and know how it feels like to be in a country with no PEACE (The 11 years civil war).**

**With the peace pitch in my country, it will serve as a space where people from different backgrounds and different ethnic groups can come together for a dialogue and conflict resolution. I'm sure it'll also serve as a mutual place where peace education would be preached for everyone to have a clear view of how important peace is in every given society. With the peace pitch I believe there're going to be programmes, seminars and workshops which are going to be organised in order to empower people to be able to identify and develop their own solutions to conflict, fostering a culture of peace and collective progress by**

**encouraging dialogue and understanding. There are more to make mention of, but I'll take a pause here.**

**My message to the participants in this year's Global Peace Games would be simple and precise. My message to them will not be over emphasised but to explain to them how vital peace education is to us as young people. Also, I'm going to tell them that, in order to achieve peace, we all need to encourage one another to actively engage in creating peace rather than just passively waiting for it.**

**Again, urge them to have the courage to stand up against any act that tends to disturb the peace in their respective societies.**

**Lastly, I'm going to end by telling them that peace can not be achieved by just one person. They need to know that achieving peace is a collective effort and teamwork, as every individual should be included.**

**Actually, I just want to lay my focus on just one favourite memory, which I can't forget in a hurry.**

**That favourite memory of mine was when I was given the honour and privilege to be part of those who were selected to lay the footballs in blessed memories of the fallen soldiers who fought and lost their lives in the world war. This was indeed a historical day to have been not only one of the two girls who were selected but also an African girl. It was a great and amazing experience.**

**My sincere thanks and appreciation goes to all organisers of the gobal peace games. I was not only selected to be part of the event, but also I was recognised as a peace ambassador. 😊**
