AIM

The aim of the CPFP is to create peacemakers for the future. Young people (inspired by the 1914 Christmas truces) will absorb the essence of why fair play is important and begin to understand that play/sport can transcend conflict and cement friendships for life.

Lest We Forget

The CPFP enriches learning across sports, history, literacy, the arts, humanities, and citizenship. Beyond the classroom, it builds stronger communities and connects generations.

Schools can join the movement by signing the CPFP Declaration. By signing, they commit to hosting an annual games event on their peace pitch to honour history and celebrate peace through play.

Primary schools, secondary schools, and sports clubs of all kinds are welcome.
